

AMIN'S HOUSE

Collegare la vista dell'ambiente circostante, che comprende lontane montagne, il lago, gli alberi e tutti gli elementi nello sfondo, alla forma ed all'altezza dell'edificio era la sfida significativa di questo progetto.

Ci sono diversi accessi orizzontali e verticali tra i piani e sono stati considerati diversi modelli accessibili.

Le finestre in questo progetto fungono da superficie integrata per collegare spazi interni ed esterni e per garantire il massimo livello di trasparenza per valorizzare l'ambiente circostante.
